THE DAILY

PACIFIC COMMERCIAL ADVERTISER

SIX-PAGE EDITION

Be just and fear not;
Let all the ends thou aim'st at be
Thy Country's, thy God's, and Truth's.

FRIDAY, NOV. 27, 1891.

WITH the permission of the public, which we are sure will be kindly given, the ADVERTISER proposes to take a holiday with the rest of the world, and honor Hawaiian Independence. There will accordingly be no paper published by this office on Saturday. The public shall not ventually be the losers, as we promise our readers to give them all the news and perhaps a little more, in our next issue.

THE ELECTIONS.

Under the constitution of Hawaii the people have one day in two years in which to express with authority their opinion or judgment. This is election day. In a little over two months the popular voice will be heard. The efforts to mould or influence this expression of public opinion generally wax more strenuous as election day approaches. Already several parties have entered the field. So far nothing has been heard from the Reform Party. In spite of a great deal of noise, of crimination and recrimination, it is safe to assert that the great body of the people have but a single object, which is, the future well-being and prosperity of Hawaii. How that shall be best secured causes the division into parties and factions.

The issues before the nation are comparatively few. They are in brief: Shall the Constitution be amended? Shall class legislation be authorized? Shall relations with the United States be made closer? What can be done to avert impending ruin from the great industry of the nation? How can the general commercial situation be improved? How shall the expense of government be reduced to correspond with reduced revenues?

In general these few points cover all of the issues before the people. They must be discussed and all possible light thrown upon them from every point of view. Wherever there is freedom of speech, public discussion is the great educator, and the Press is the greatest medium of communication between the people. Such discussion is invited through the columns of the ADVERTISER. The strongest argument on questions of public policy deals with principles and not with persons. Often times, however, public officers are on trial, then the matter is personal.

"We are supposed to be a peaceful nation," writes Colonel Theodore A. Dodge, the well-known authority on Military subjects, in the October Forum, "but we have had our fair share of strife, foreign and domestic. Since the Revolution there have been wars with England and with Mexico, with Tripoli and Algiers; broils with Paraguay and Corea, and a gigantic civil war; rumors of war with France, England, Spain and Italy. There have been the John Brown raid, the Barnburner and Fenian raids to Canada, many incursions across the Mexican border, and the filibustering expeditions to Cuba and Nicaragua. We have had the Whiskey and Shays rebellions; the election, draft, railroad, reconstruction, and sundry serious riots; we have had well on to two hundred deadly Indian fights and many awful massacres. We have lost more men in active war since 1776 than any nation in Europe. This is a startling record for a peaceful people."

The Hawaiian Gazette Co. has just finished a large number of text books to be shipped to the South Sea Islands on the Morning Star. An edition of 1000 arithmetics, 1000 primers, 500 geographies, all in the Gilbert Island language, and 500 hymn books in the Ponapean language will be sent.

THE LIBERAL PARTY

Wilcox Denounces the Mechanics' Union and the Hui Kalaialaia.

To Observe Independence Day at Thomas Square.

The Armory on Queen street was again crowded with people on Thursday evening, the occasion being a meeting held by the National Liberal Party. Hon. J. E. Bush presided. The minutes of the previous meeting were adopted. Messrs. Holoua and Mauiawa, being also members of the executive committee of the Hui Kalaialaia, begged to be excused from serving on the Liberal Party's committee, and Messrs. R. Palau and J. W. Kualaku appointed in their stead.

The President announced that he had received an invitation from the President of the Hui Kalaialaia inviting the National Liberal Party to join the Hui Kalaialaia and the Mechanics' Union in a fitting celebration of Independence Day to be given at Thomas Square next Saturday, and also that Hons. J. Nawahi, R. W. Wilcox, D. W. Pua, W. White, and himself were requested to make addresses.

Hon. Jos. Nawahi said that the invitation came too late and it was impossible for them to prepare orations worthy of the occasion. They must be careful of what they say on that day, for any hurried expressions they utter would make them targets for ridicule. The present Ministry is negotiating a treaty with the great Republic of America that will wipe Independence Day out of existence. However, if it is your desire to have me as one of the orators on that day, I will accept with pleasure.

Hon. R. W. Wilcox spoke as follows: We must excuse the ignorance of the President of the Hui Kalaialaia. He is old and uneducated, and, therefore, his will is weak. We have been insulted by the Hui Kalaialaia and the Mechanics' Union. They have met and arranged a programme for Independence Day, and we were not represented at that meeting. This is a most disgraceful and humiliating proceeding. But as President Kahooni, is influenced by the Mechanics' Union, and as his intentions are honest, we must bear the insult lightly, and excuse his error. We must lay the whole weight of our disapproval of this breach of etiquette on the Mechanics' Union. They are undermining us; they have worked against our interests during the last Legislature. Do not associate yourselves with them; they are working for their own personal ends, not for the nation. Their leaders were the very men who worked against your interests. They have invited the Hui Kalaialaia to a luau at Ewa next Saturday. Their object is to win the delegates of the Hui Kalaialaia on their side, and influence them to vote for their candidates. They think delegates of the Hui Kalaialaia are fools. A certain hackman, who hates Hawaiians, and who spends sleepless nights debauching, is engaged in this base scheme. The Mechanics' Union is a bitter enemy of the Hawaiians. President Kahooni has not foresight enough to see these contemptible tricks done in secrecy. Regard the Mechanics' Union as bitter foes to eternity. Do not march together to Thomas Square with them on Independence Day. They have neither love for you nor for our country. This is not America's or France's Independence Day that they should force themselves to have a voice in its celebration. They believe that we won the last election through them. That's an idle dream. It was the shedding of the innocent blood of those seven men on the 30th of July, 1893, that roused the people to vote for us. That gave us the day, and not the Mechanics' Union. How many of the Mechanics' candidates had remained true to us? None excepting Hon. A. Marques. The Mechanics' Union are office-seekers. They do not want Hawaiians to be elected to offices of trust. No, they wish them to be cantoneers. [Applause.] They cannot prosper in their own country. No, they shall die ignominious deaths. [Applause.] The Mechanics' Union are strangers and they are on the same level with the Chinese. [Applause.] We shall hold a meeting at Palace Square next Saturday evening at 7 o'clock, and we shall then attempt to unveil corruptions of government officials. [Prolonged applause.]

Mr. Bush wished to be excused from taking part in the celebration of Independence Day, as that is his Sabbath and he considers spiritual affairs of prime importance and earthly secondary.

Messrs. Wilcox, Nawahi, Pua and White were chosen orators of the day and a meeting at Thomas Square on Saturday morning at 10:30 was arranged, after which the meeting adjourned.

The above story reminds us of the fact that the goods Mr. Sproull is showing in his store are not resurrected from last year's stock, but are all new goods of the latest designs. The ladies all say that his silk and linen goods are BEAUTIFUL!

A Ghost Story.

Mr. Casey had been to market. Some boys had concocted a plot to "scare his wits out," and so, when he was passing a churchyard, on the lonely country road, there was presented to his gaze the usual scooped turnip and candle, at the top of a broom and white sheet, accompanied by unearthly groans and a rattling of chains. But Mr. Casey did not fly in terror, as expected, for he stopped, and, taking off his hat, said: "Might I make so bold as to inquire if its a general resurrection, or are ye jist havin' a walk round by yourself?"

The above story reminds us of the fact that the goods Mr. Sproull is showing in his store are not resurrected from last year's stock, but are all new goods of the latest designs. The ladies all say that his silk and linen goods are BEAUTIFUL!

Hawaiian Hardware Co., L'd.

Monday, Nov. 23, 1891.

During the past year Honolulu has been afflicted with occasional visits from "tramp" correspondents who fill that portion of their anatomy usually allotted to brains with ideas of the condition of affairs here and then unburden themselves in the columns of any paper that will pay them at so much per line. The visits of these fellows are to be deplored, though, to the people who live on peaceful Hawaii, their writings savor of the ridiculous.

A few weeks ago, according to one of these tramps, we were on the verge of a revolution. We like to be in time for everything—it don't make any difference whether its soup, dessert or a fracas. If there's going to be a revolution you'll want fire arms. We've got them now and particularly adapted to such a revolution as we are going to have. They're called Cadet Rifles and shoot blank cartridges. They are used in the States by young men learning to drill and that's what most of the boys will do with them here. They are built light and shoot a 32 cal. blank cartridge—breach loading and everything about them is of the most modern pattern. They have bayonets on them—the proper size to jab one of those correspondents with. Your boy will want one the minute he sets eyes on them. He'll find them just the thing for firing Christmas salutes.

We've also received a lot of Sure-enough Fire Arms. New style revolvers—hammerless and all that sort of thing. Blue and Nickel-plated barrels, as you prefer. These are the very best revolvers made. So many of the followers of Isaac Walton have recently called on us for fishing tackle that we decided some time ago to get a supply of the very things they need to land the festive *uhua* or the luscious mullet.

Our hooks run from the No. 12—about the size of a small bent pin to one large enough to hook a shark. The lines run from a No. 151 to 159 in linen—strong and long; and in cotton from a No. 00 to a No. 12.

We will sell you a single line or enough to catch all the fish in the sea.

The building boom that Honolulu is now experiencing has created an additional demand for mason's stone hammers. We've been a little short of them. The "Martha Davis" brought us a lot that look to be the best ever used by a mason. These are made with teeth and are finished in every way.

"Cleanliness is next to Godliness!" Do you use soap? Perhaps you've not noticed as you enter our store that the odor of sweet scented posies pervades the air. Its from the Soap counter on your right. The choicest grades of one of the best manufacturers in the States—Colgate & Co. The name is as well known as "Pear's" and their soaps are a little better. We have ordinary brown soap, too!
